Forecast for Wednesday 12 Jul 2023

Weather: Frequent heavy showers will affect the region throughout the morning, continuing into the afternoon but gradually easing. By evening, remaining light showers will become mainly confined to western parts with drier and perhaps brighter conditions in the east.

Chance of cloud-free hill tops above 800m: 20-30% increasing to 40% during the evening.

Low cloud and visibility: Widespread broken low cloud base 500-700m, lifting a little into the evening. Temporary visibility reductions to moderate in showers.
